Outreach activity in the form of Tree plantation Drive

Outreach activity in the form of Tree plantation Drive by students and staff of Indira Institute of aircraft Engineering. Planting of trees is especially important to protect our environment against air pollution and global warming. The drive was a huge success, empowering students with substantial knowledge of environment and plants.

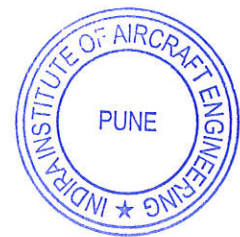

Nature makes us healthier and more energetic, and stimulates our everyday life. The integration of trees into urban livability offers a myriad of benefits to city dwellers apart from beautifying cities and making them livable. A healthy urban forest is a group effort of proper planning, maintenance, awareness, and allocation of resources and community involvement which entail constant dedication.

Spending much time around trees enhances students' academic performance, mental and physical well-being, concentration, and self-discipline as well as their love of nature. Thus, when they are involved in tree planting projects with the maintenance process for years with a sense of ownership, the children learn the complex, time-consuming process of growing plants into giant trees. As their trees grow, they learn the environmental and aesthetic benefits these trees offer to the colleges for decades. In essence, this training makes them environmental stewards who serve in protecting nature and keeping cities green.

Outreach activity in the form of Aids Awareness

People with AIDS can have a high viral load and may easily transmit HIV to others. People with AIDS have badly damaged immune systems. They can get an increasing number of opportunistic infections or other serious illnesses. Without HIV treatment, people with AIDS typically survive about three years.

Agenda of Aids awareness day

- Educating everyone to understand how HIV and AIDS is spread and what we can do to protect ourselves. ...
- Making condoms freely and easily available and educating people on how to use them.
- Promoting openness so we can break down the stigma and silence surrounding HIV and AIDS.

Outreach activity in the form of Palakhi Participation

Millions of people participate in the Pandharpur Yatra and the journey is known as Waari in Marathi, meaning a holy pilgrimage.

Thousands of devotees are expected to participate in this annual spiritual event to pay their respects to the revered Sant Tukaram Maharaj and Dnyaneshwar Maharaj.

The Palkhi procession includes revered saints of Maharashtra and draws Warkari from all across the state to participate.

This year students and staff of Indira Institute of aircraft Engineering actively participated in PalakhiSohla. Students distributed snacks and daily needy items to all peoples called warkari in palakhisohla.
