## E-Governance Report

Electronic governance or e-governance is the application of information and communication technology (ICT) for delivering services, exchange of information, communication transactions, and integration of various stand-alone systems between the management and other major stakeholders of the college – the students, faculty, staff, and alumni.

The primary objectives of the e-governance include:

- Achievement of efficiency in operations
- Promotion of transparency and accountability in transactions
- Effective communication among the stakeholders
- Development of team work and collaboration among the users
- Ease of access to information
- Compliance with the rules and regulations of the governmental nodal agencies

The system is operated through a high bandwidth Wi-Fi enabled environment. The components of the system include:

- 1. Admissions** – includes sale and receipt of applications, screening and selection, payment of fees, onboarding
- 2. Course Delivery** – includes curriculum design and development, choice of pedagogy, delivery of courses, engagement of students in co- and extra-curricular activities
- 3. Evaluation and Assessment** – includes conduct of examinations, evaluation, Administration – includes payroll management, attendance, recruitment and selection, performance appraisal, training and development
- 4. Institutional Website** – provides a platform for accessing institutional information and for interaction of stakeholders
